"This board occupies vast territories in China, and in the six provinces of that country in which missionaries are at work there are more people than there are in the entire United States. The other Far East field is Japan, with a population twice as large as that of the Southern States.

The closest foreign mission field to the board is in Mexico, which has as many people in it as are in Maryland, Virginia, North Carolina, South Carolina, Florida and Kentucky. Its fields extend also into four countries of South America-Brazil, Uruguay, Argentina and Chili. FRENCH SECURITIES SAFE, SAYS NEW YORK BANKER

NEW YORK, Nov. 25.-Charles E. Mitchell, president of the National City Bank, in an address yesterday before the Bond Club at yesterday before the Bond Club at their monthly luncheon, expressed his belief in the security of French government obligations. "I am convinced," he said, "that French bonds held by American in-vestors are safe and sound invest-

ments. France's external debt is only about \$400,000,000, compared with an international debt of \$22,-000,000,000. The French people will never permit a bond held by a foreign national to go by default. French bonds as they stand today represent a ridiculously low credit rating."
